

ScienceDirect Agricultural & Biological Sciences Collection, Backfiles from pre-1995

This collection includes pre-1995 issues of a wide range of agricultural and biological sciences journals. Electronic access to these publications gives researchers instant access to titles going back to the first issue of the various journals. Many of the articles in the subject areas covered remain highly relevant.

Among the 118 journals included in this database are many core titles. These include *Animal Behavior*, *Bulletin of Mathematical Biology*, *Cryobiology*, *J Human Evolution*, *J Theoretical Biology*, *Physiological and Molecular Plant Pathology*, *Phytochemistry*, *Plant Science Letters/Plant Science*, and *Theoretical Population Biology*.

Purchase of this database will provide access to the entire Washington University campus, including the medical campus.
