Subject Librarians

How we help
- Identify and provide library tools, resources, and services that meet your research needs.
- Uncover options to address data challenges, including data analysis, visualization, and management.
- Develop effective instruction and learning materials for courses and disciplines.
- Cultivate, maintain, and manage collections of greatest value to the Washington University community.

We are here to ensure that all faculty, staff, and students achieve academic success.
Contact your subject librarian or visit library.wustl.edu to learn more.
